

We specialise in affordable Framed Flowers.
Our service, quality and workmanship is of
the highest quality.

HOW DO WE DO IT SO WELL?

Our drying machines were designed by ourselves to ensure that the optimum quality is achieved with the drying of each individual flower. The flowers are artificially re-coloured and UV treated. Your flowers are then fumigated and then skilfully recreated in their original shape in your choice of frame.

FRAMED TO SUIT YOUR DECOR!

You can choose from a large range of frames and select background mounts with borders to enhance your framed flowers and to compliment your existing decor.

AUSTRALIA WIDE DELIVERY

Our freight companies offer affordable and overnight services from most destinations within Australia.
